1). Performance characteristics:

This machine can produce V (1/4) folding square paper napkins and the wallet, N-type, M-shaped napkins (adjust able width, single or multi color printing can be added), the first longitudinal fold, horizontal fold after forming, embossing according to customer demand custom (can add words or factory standard). This machine has automatic counting, automatic thermostat, adjustable speed. smooth running, compact structure, accurate counting, beautiful appearance, fully functional, is non-woven paper products processing and processing of essential products.

2). Technical Parameters:

	Model	FY-300*300 mm
	Raw paper diameter	Max 1100 mm
	Finished size	150*150 mm
	Dimensions unfolded	300*300 mm
	Original core inner dia	76.2 mm (standard)
	Embossing rollers	Steel to wool
	Printing rollers	2 colors printing function
	Counting system	Electronic counting
	Control system	Frequency control, electromagnetic governor

Tel-02: +218917333191

	Transmission	6# chain
	Total Power	3.5 kw
	Production speed	140 m/minute
	Voltage	AC380V,50HZ
	Machine dimensions	3000*1200*2000 mm
	Weight	1000 kg

Quotation:

Without color printing: 4,400 USD

With 1 color printing: 5,300 USD

With 2 colors printing: 6,500 USD

Toilet paper rewinding machine

Toilet paper plate machine is widely used in toilet paper shaft, non-woven fabric, air-laid paper cutting rewinding, slitting width, layer number can be adjusted according to need, quick speed, stable running, simple operation, is the paper mill or cutting and ideal facilities for the production of paper products plant. This type with embossing function, can be choose.

Machine Model	FY- 1880
Raw material Width	≤2200mm
Finished roll core diameter	Φ30-150 mm
Raw Material Diameter	≤Φ 1100 mm
Raw Material Core Diameter	76.2 mm
Embossing roll	Steel to woolen
Speed	150-220m/min
Driving	Electromagnetic speed regulation motor
Pneumatic System	3 HP air compressor, mini pressure 5kg/cm ² Pa(Provided by client)
Total Power	7.5kw
Dimension(L×W×H)	6500x2700x1750mm
Weight	2500kg

Tel-02: +218917333191

Band Saw Cutting machine

Band saw paper-cutter (toilet tissue cutting saw) is used, matching with embossing and rewinding machine, to cut into needed paper roll product in accordance with required length and width. This machine is equipped with automatic sharpening and traveling table device, maintaining stable operation performance and high production efficiency.

Machine Model	FC- 230
Finish product size	adjustable
Power required	1.1KW
Dimension	900×700×1800mm
Weight	350KG

Email: miza_ly@outlook.com.

Tel-01: +447477838391

Tel-02: +218917333191

Sealing machine

It is equipped with a large power transformer to bond polyethylene, and multi-layer composite plastics, strong sealing strength, fashionable and practical and long life working time.

Machine Model	FS- 150
Finish product size	adjustable
Power required	350W
Dimension	800×700×7500mm
Weight	50KG

Miza company for Import and Export.

Email: miza_ly@outlook.com.

Tel-01: +447477838391

Tel-02: +218917333191

Embossing roll pattern can be chose as the following also can do client design

embossing.

Quotation: 12,600 USD

Tel-02: +218917333191

II. Equipment introduction:

1. Facial paper folding machine

1). Performance characteristics:

This model FY-2L facial tissue paper folding machine pumping is cut by the knife roll after cutting the raw paper, folded into a chain of rectangular cross tissues. machine with synchronous belt drive, transmission speed before and after the ratio, so that equipment suitable for a variety of base paper needs, greatly improving the quality and efficiency.

Function and character:

1. This machine adopts vacuum suction, automatic counting function stack, with a high speed, neatly folded, and easy operation.
2. The machine is equipped with a tension adjustment device to ensure the finished product size accuracy.
3. Broken paper automatic shutdown system, to avoid paperless or broken paper to produce waste;

Tel-02: +218917333191

2). Technical Parameters:

	Item	FY-2L
	Raw paper weight	13-17g/m ² tissue roll
	Raw paper width	400 mm
	Raw paper diameter	1100 mm
	Paper core diameter	76.2 mm
	Finished facial size	200 mm*200 mm (Or custom)
	Upper blade	pneumatic spiral blade
	Folding	vacuum absorption
	Vacuum system	11 kw
	Controller	Electromagnetic speed
	Production speed	100-110 m/min
	Cutting system	Pneumatic point cut,full cut
	Counting	automatic
	Paper broken	photoelectric eye
	Voltage	AC380V,50HZ
	Air pressure	0.5Mpa (prepared by user)

Quotation: Facial tissue machine : 10,400 USD

Packing machine : 5,400 USD

IV. Pocket tissue making process:

Bobbin paper rolls

Pocket tissue folding machine

Pocket tissue

Packing machine

II. Equipment introduction:

Pocket tissue paper folding machine

1). Performance characteristics:

This embossed mini pocket tissue paper handkerchief machine adopts vacuum adsorption by folding paper towels, calendering, embossing, cutting, automatic folding into small size pocket tissue paper.

1. Unwinding tension control, tension can be adapted to the level of base paper production.
2. Folding device positioning is reliable, the products size uniform.
3. Face the rolling pattern, pattern clear (embossed pattern selected by the customer)

Tel-01: +447477838391

Tel-02: +218917333191

4 According to user requirements for the manufacture of a variety of different specifications of the models.

2) . Technical Parameters:

	Model	FY-210
	Raw paper diameter	Max 1100 mm
	Finished size	210*210 mm
	Dimensions folded	(75-105)mm*53mm
	Raw paper size	150-210 mm
	Embossing rollers	Steel to rubber
	Counting system	Automatic counting
	Control system	Frequency control, electromagnetic governor
	Total Power	4.5 kw
	Production speed	400-600 sheets/minute
	Voltage	AC380V,50HZ
	Machine dimensions	3600*1000*1300 mm
	Weight	1200 kg

Quotation: Pocket tissue machine : 5,400 USD

Packing machine: 6,700 USD
