Quote & Technical Specification

Name	Qty	Unit Price (USD)	Total Price (USD)	Remarks
Destoner	1 set	3000	3000	Capacity:300kg/h
Roaster	1 set	1800	1800	50kg capacity
Winnower	1 set	2100	2100	200kg/h
Colloid mill	1 set	2500	2500	Refineness:2-50um Capacity:80-300kg/h
Automatic Screw Oil Press Machine	1 set	2100	2100	Average Performance:30kg/h
Ball mill	1 set	4500	4500	Capacity: 20kg
Chocolate conche	1 set	9700	9700	Tank capacity:500kg
Crusher for cocoa cake	1 set	2900	2900	Capacity: 200-400kg/h, crushing cocoa cake into small pieces
Cocoa powder grinding machine	1 set	1900	1900	Capacity: 100-300kg/h, grinding small cocoa cake pieces into powder
Sifter	1 set	1900	1900	10 m ²
Sugar grinding machine	1 set	1900	1900	Capacity:100-300kg/h
Tempering machine	1 set	7400	7400	Tank capacity:25kg
Dosing head and vibrator	1 set	1000	1000	Attached with the tempering machine
Chocolate Feeding system	1 set	4900	4900	1*150 tank, 1*chocolate pump, 1*control
Mould loader & heater	1set	2600	2600	For mould heating
Vibrator	1 set	2400	2400	For mould vibrating
Mini Chocolate depositor	1 set	17000	17000	For chocolate depositing
Vertical cooling tunnel	1 set	17000	17000	Capacity=120Moulds,5HP water chiller,not including water tower and pipes
Demoulding device	1 set	8000	8000	Turn mould over and then Knock on the mould
Moulds	100pcs	6	600	275-175mm size
Steel Mould	1 set	500	500	For customized molds
Chocolate pipes	Depends	80/m	80/m	Depends on actual length of pipes
TOTAL AMOUNT		\$95,700		

Delivery Time

60 days after first payment received.

Payment Method

The buyer shall pay of 40% the total contract amounts after signing the contract;

The buyer shall pay of 60% the total contract amounts by TT before the goods leave the Seller's factory.

Warranty: Three years

Installation and Commissioning

The seller will take charge for the installation and commissioning. But the labor cost (80USD/DAY) and round – trip flight ticket /accommodation/ local transport/personal insurance and other cost for the technicians are for the buyer's account. The buyer shall provide common tools for installation and debugging and special tools (if required).

Training for Operator and maintainer

The training for operator and maintainer are normally carried out by seller during and after installation and commissioning by our commissioning technician. Seller will try their best to give both operators and maintainer a full understanding and make both of them can successfully operate and maintain the equipment.

Quality Guarantee

The line is covered by the buyer's guarantee for a guarantee period that lasts twelve months commencing from the date of the certificate of acceptance signed by buyer after installation and commissioning finished of the line. However, not exceeding fifteen months after the date of arrival in port of destination. Whichever comes earlier.

Spare Parts Supply

During quality guarantee period, in case of any quality accident due to defect of design ,materials and workmanship. The seller will cover the supply of the damaged parts free of charge, or be responsible for repair.

If damages resulting from repair by unauthorized parties or damage due to accident, alteration , misuse is not covered. After guarantee period the seller will guarantee to provide spare parts for repair work. but the charge of cost for spare parts and other cost for the technician will be buyer's account.

I.DETAILED DESCRIPTION

No.	Main parameters	Pictures
1	<p>Roaster Mainly used for baking cocoa beans,peanuts,chestnuts, walnuts, almonds, swallowed beans, coffee beans, melon seeds and other granular nut foods.</p> <p>Capacity: 200kg/h</p> <p>Motor power:1.1kw Heating power:18kw</p>	
2	<p>Winnower Mainly used to processed cocoa beans, broken evenly, clean and sorted.</p> <p>Capacity: 200kg/h Motor power: 0.75kw Voltage: 380V Product rate: >98% Dimensions:1200*1100*1200mm Suction blower:0.6*0.6*1.4 Weight:140kg</p>	
3	<p>Colloid mill It is mainly used for superfine pulverization of wet materials in food, pharmaceutical, chemical and other industries. It can crush, emulsify, homogenize and mix various semi-fluid and milky substances.</p> <p>Refineness:2-50um Capacity:80-300kg/h Motor power:5.5kw Motor rotating speed: 2930r/min Dimensions: 680×380×880mm Wright:120kg</p>	
4	<p>Automatic Screw Oil Press Machine The automatic hydraulic oil press has features of high pressure and large capacity.It can be used for hot and cold pressing in varieties of high-grade oil crops,such as cocoa beans,walnut,almond,pine nuts,sesame,olives,and mountain tea seed,etc,with better pressing effects.It can also be used by clay,activated carbon and other chemical raw materials for dehydration,deoilng and off liquid.</p>

	<p>Name:Automatic Hydraulic Oil Press Machine Overall Dimensions:830*750*1240mm Working Pressure:50MPa Pushing Force of Working:150t Inner Diameter of Pressing Barrel:180mm Working Stroke of Piston:260mm Capacity of Pressing Barrel:5kg Average Performance:200kg/h Main Motor:1.1kw Motor of Heating:1.5kw Weight:510kg</p>	
<p>5</p>	<p>Chocolate conche The chocolate conche is used for the refining of chocolate ingredients/mixture of cocoa butter, cocoa powder, cocoa mass, sugar, milk powder etc. It can improve the final texture and flavor of the chocolate. It is the main production equipment of the chocolate production line. Model/Project 500L Maximum capacity(L) 500 Grinding Fineness(micron) 20~25 Main Axle Rotating Speed(rpm) 33 Grinding time(h) 16~22 Main motor power(kw) 15 Electrical heating power(kw) 5 Spot motor(kw) 1.5 Weight(kg) 2572 Outside dimensions(mm) 2465*1146*1312</p>	
<p>6</p>	<p>Tempering machine The chocolate tempering machine is specially for natural cocoa butter.After tempering ,the chocolate product will be with good flavor and better for long-term storage. Widely used in commercial and handmade chocolate/confectionery company, add with some parts and device to make all kinds of chocolate Tank capacity:200kg</p>

<p>7</p>	<p>150L. Chocolate holding tank+pump SSS304, arc bottom with bottom valve. Mix motor: RV110-90-1.5KW,zhenyu gear motor Heating:2 pcs SSS heating tube Temperature control: PT100 temperature sensor. Temperature display panel. Water heat preservation. Capacity=150L Dimension:1750*150*1500mm Weight:100kg</p>	
<p>8</p>	<p>First grinder Capacity: 500-600kg Power: 18.5/ 22 kw Weight: 600 kg</p>	
<p>9</p>	<p>Second grinder Model: 80B Motor: 37 kw Capacity: 500-600 kg Weight: 1800 kg</p>

10	Sifter 10 m ² Dimensions:2380*800*900mm	
11	Destoner Size: 1*2.2*3.5m Power: 3kw	
12	Ball mill machine Technical Parameters: main motor: 1.1KW. rotating speed: 74r/min. steel ball: 25kg. chocolate capacity: 20L. Outside dimensions: 800*600*800. Weight: 180kg.	
1	Mould loader & heating machine Double layer stainless steel insulation cover. Air cylinder lifting and close the cover. When moulds stops or emergency stop button has been pressed, the heating process will be auto stopped and the cover will be auto lifted.power: 6kw Power:6kw

<p>2</p>	<p>M2D802 mini one-shot depositor It is able to produce many different kinds of high quality chocolate candies, such as chocolate blocks, nuts mixing, center filling etc. and quantity of filling is up to 90% . It is mainly for small and medium production, customized are available. The compact structure and advanced technologies makes it popular at home and abroad.</p>	
<p>3</p>	<p>Mould vibrating machine Vibrator: MVE-100/3 Power: 0.3kw Vibrating area extended close to depositor</p>	
<p>4</p>	<p>Vertical cooling tunnel High molecular material guide rail Low noise 5HP*10 layers of cooling, temperature 1-10°C adjustable Air fan: SF6-4 2.2KW 380V Blast capacity: 18700m³/h Suction fan: 750w, 380V, Air volume: 2400m³/h Power: 8kw</p>	
<p>5</p>	<p>Auto demoulding machine 1. SMC air cylinder spring pull up, plastic mould stripping hammer. 2. Air cylinder controlled beat, beat frequency is adjustable. 3. One or two group of knocking devices.</p>	
<p>6</p>	<p>Mould Mould size: 275-175-30mm or customized</p>
